

Hope Health and Wellness Blood Pressure Grant*

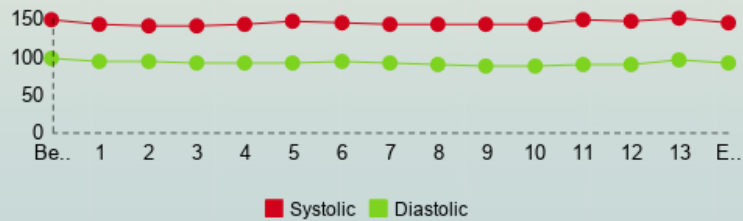

Through the life of the grant, 63 clients enrolled in the program. As of May 2018, 55 were still in the program. 59 clients provided over 7,000 readings.

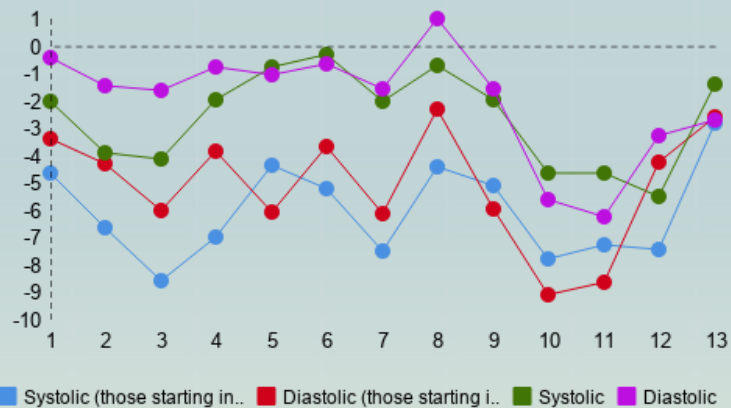

Change in Blood Pressure

Blood Pressure By Month

Change in Blood Pressure from Baseline

* AuMHC's Chambers Hope, Health and Wellness Clinic (HHW) was funded from December of 2016 to June of 2018 by the Colorado Department of Public Health and Environment to implement and evaluate an at-home blood pressure monitoring system. Clients were asked to take their blood pressure at home on a machine that would record the reading then bring the machine into HHW and the recordings would be downloaded.
